

There are three categories of user permissions for a user in the Alberta Carbon Registries (AEOR and EPC Registry). In the following hierarchy:

1. **Company Level** – permissions to modify actions at the company level (e.g. company description, legal documentation etc.) and registry and project level permissions.
2. **Registry Level** – permissions to modify actions at the registry level (AEOR or EPC), this includes modifying project/facility level permissions and authorizing authorized project contacts (APC).
3. **Project/Facility Level** – permissions to perform actions (e.g. project registration, transfers, retirements) on specified projects or facilities
