

CANADIAN STANDARDS ASSOCIATION IS PROUD TO RECOGNIZE THAT

Wakefield Canada Inc.

has declared that it followed the internationally recognized ISO 14064 series of standard for greenhouse gas inventories and reporting and has met all of the reporting requirements of the **CSA GHG CleanStart™ Registry** for reporting its steps to be recognized as

CARBON NEUTRAL

For the fiscal year 2008 from truck fleet, car fleet, employee air travel, energy use in buildings and propane use.

This certificate recognizes that the company's assertions have been third-party verified in accordance with ISO 14064-3 and that the emission offsets have been:

1. Registered on a public registry
2. Verified by a third-party, and
3. Serialized and retired (the emission reductions/removals have been taken out of circulation)
